Profile

UI/UX and Visual Designer with 6+ years across product design, brand systems, and digital marketing for SaaS, e-commerce, gaming, and F&B companies. Experience spans wireframing, prototyping, and usability-driven design as well as end-to-end brand identity and campaign design. Comfortable owning a problem from user research through high-fidelity UI to shipped, brand-consistent execution. Remote-collaboration experience with cross-functional teams across North America and Asia.

Experiences

03/2026 – Present
Islamabad Pakistan

APIMatic, *Senior Visual Designer*

- Designed high-fidelity visual assets and illustrations in Figma — from wireframe through polished execution — for 1–5 product launches and marketing campaigns on an API platform used by Fortune 100 and Fortune 500 companies, collaborating closely with product and marketing teams throughout.
- Produced 4–10 short-form videos and motion pieces, using visual storytelling to turn product launches and developer content into polished, on-brand assets.
- Adopted an AI-assisted design workflow, cutting asset production time by roughly 50%.
- Built a brand guideline system — covering typography, layout, and color — now used across every social, web, and print deliverable at APIMatic.

09/2025 – 03/2026
Islamabad, Pakistan

Riphah International University, *Assistant Manager Web & Graphic Designer*

- Led design and development across 4 web properties for Riphah's global digital learning platform, collaborating cross-functionally with academic and marketing stakeholders.
- Designed promotional creative and layouts for 4–8 course and enrollment campaigns.
- Ran user research to identify and resolve usability issues in the platform's core enrollment flow.

04/2025 – 08/2025
New York, USA (Remote)

Nexera Design Group, *Senior Creative Designer*

- Designed ad, email, and social creative for 6–15 client campaigns, using visual storytelling, typography, and layout to turn brand concepts into polished digital assets.
- Produced short-form video and motion content supporting active brand campaigns.
- Rebuilt the team's brand asset library, standardizing typography and layout systems in close collaboration with marketing and development teams.

02/2025 – 06/2025
Richmond, USA
(Remote)

Ilham Inc., *Game UI Designer (Freelance)*

- Designed the full UI system — menus, HUDs, and navigation — for a shipped game title, building wireframes and interactive prototypes in Figma.
- Iterated quickly with the art and development team based on ongoing feedback, refining prototypes across multiple rounds.

05/2023 – 06/2025
Islamabad, Pakistan

Mooglee Studio, *User Experience Designer (Freelance)*

- Designed web and mobile app interfaces in Figma across 1–3 client projects, building wireframes and interactive prototypes end-to-end.
- Ran user research and usability testing to inform interface, typography, and layout decisions on each project.

- Built a reusable design system component library used across client engagements, collaborating closely with developers on handoff.

05/2021 – 12/2024
Islamabad, Pakistan

Foodpanda, Creative Graphic Designer

- Designed marketing graphics and creative for 100+ in-app and social campaigns over 3.5 years, applying consistent typography, layout, and visual storytelling at scale.
- Ran A/B tests on ad creative to inform design decisions across high-volume campaign cycles.
- Built and maintained a reusable creative asset library used across all campaign work.

11/2019 – 06/2020
Islamabad, Pakistan

Planet IE Coworking and Incubation Center, Graphic / Web Designer

- Created social media and web visuals, boosting engagement by 50% and website traffic by 30%.
- Developed a brand identity system (logo, colors, typography), increasing recognition by 20%.
- Designed ad campaign creative that improved lead generation by 15% and conversions by 10%.
